

**WATER**  
only once a week.  
**PICK YOUR DAY!**

(361) 758-5301

Watering lawns only once a week encourages grass and plant roots to grow deeper which makes for a healthier landscape. Current water conservation requirements set by the City of Corpus Christi, and followed by the San Patricio Water District, and the City of Aransas Pass, allow for no more than once a week lawn watering on the day of your choice between the hours of 6 p.m. and 10 a.m.
